Honorable Michael E. Farbiarz  
United States District Judge  
District of New Jersey  
Martin Luther King Building & U.S. Courthouse  
50 Walnut Street, Newark, New Jersey 07101

**Re: *Khalil v. Trump, et al.*, No. 2:25-cv-1963 (MEF) (MAH)**

Dear Judge Farbiarz:

Petitioner respectfully writes with an urgent request for this Court's intervention regarding his ongoing detention. Specifically, and for the reasons set forth below and to aid in his habeas and proceedings, Petitioner requests that this Court issue an order: (1) requiring the LaSalle Detention Facility to permit Mr. Khalil to have a private contact visit with his wife, Dr. Abdalla, and newborn child today, May 21, 2025, for two hours<sup>1</sup> and/or (2) at a minimum, permit Dr. Abdalla to join a contact visit currently scheduled with immigration counsel at LaSalle so the legal team can discuss legal strategy and facts known collectively between Dr. Abdalla and Mr. Khalil and which is relevant to his pending habeas case and for pending motions in his immigration proceedings. One of the first orders issued in this case was to direct the U.S. Attorney's office to ensure that DHS would provide regular access to counsel, *Khalil v. Joyce*, 1:25-cv-01935, ECF 29 (S.D.N.Y.), which is an equitable power this Court retains and authorizes the relief requested—modest as it is as compared to the painful costs of denial.

As the Court is aware, the Khalil family welcomed their first child one month ago, on April 21, 2025. In order to provide the most indispensable human connection and to help Mr. Khalil prepare for his ongoing habeas proceeding and for the upcoming immigration hearing, Petitioner's wife and his newborn baby have traveled over 6 hours and 1500 miles to visit Mr. Khalil in detention, which will be the first time he will be able to see or hold his family since his arrest and transfer to Louisiana, over 10 weeks ago. As this Court well knows, Mr. Khalil is purportedly in civil immigration detention, where he cannot be subject to punishment or retaliation; yet currently, routine legal or family visits only occur in a confined space permitting muffled communication through a full plexiglass window that permits no human touch.

Petitioner's counsel have made repeated requests for a contact visit to occur between Mr. Khalil and his wife and baby to the relevant ICE and GeoGroup administrators at the LaSalle Detention Facility in Jena. Such a visit is necessary for the most elementary human reasons and given the ongoing strain of his pending habeas petition, this visit is critical to ensure Mr. Khalil, who is an active participant in his legal case, can continue to meaningfully contribute to the proceedings before this Court.

---

<sup>1</sup> Currently, Dr. Abdalla and Mr. Khalil have a visit approved for 6PM CT, however that visit would be a no-contact visit.

The relevant administrators have responded that they are unable to accommodate this request, including a confirmation of this refusal this morning. (Email correspondence attached as Exhibit A). ICE policy authorizes contact visits between detained individuals and family members, subject to the reasonable discretion of DHS officials.<sup>2</sup> The refusal to permit a contact visit is not reasonable and is further evidence of the retaliatory motive behind Mr. Khalil's arrest and far-away detention as well as the ongoing punitive nature of his detention. Petitioner, his wife and infant son are, as all the evidence in this case demonstrates, the farthest thing from a security risk. It is the government who chose to detain Mr. Khalil and send him 1500 miles from his family rather than detain him, as they could have (and as we have requested in seeking a transfer there), in Elizabeth, New Jersey, where counsel confirmed with an EDC official that family contact visits are ordinarily provided on a daily basis and where a parent is permitted to hold their child.<sup>3</sup>

In addition, a legal contact visit has been authorized for today between Mr. Khalil and his counsel, from 11-3pm CT. It thus appears the facility can accommodate contact visits absent a plexiglass barrier. Thus, the facility should make accommodations during or after this time for a private in-person visit where the family can be alone together for the first time. In addition, and at a minimum, counsel needs to meet with Petitioner and his wife together to discuss the factual circumstances surrounding his arrest on March 8, 2025. This discussion is relevant both to his habeas proceedings and his immigration proceedings. For the former, this conversation is relevant to his claims of retaliatory arrest and detention and the unusual circumstances surrounding both events that reflect the government's retaliatory motive. For the latter, Petitioner has an outstanding motion to terminate his removal proceedings on the grounds of his warrantless arrest and to rebut DHS's misrepresentation to the immigration court that Mr. Khalil attempted to evade his arrest.

Undersigned counsel emailed the government to seek assistance with this request and their position on this motion, and agreed to give the government until 12:30 PM ET to communicate a response. The government finally responded that they would not facilitate a contact visit as "doing so would pose security concerns, such as requiring the visit to occur in an unsecure part of the facility or requiring Mr. Khalil's wife and newborn inside a secured part of the facility." Petitioner has responded asking for clarification regarding these responses in the hope of reaching an accommodation, but is filing this motion nevertheless in the interest of expediency.

<sup>2</sup> See ICE Directive 11064.3 (Interests of Noncitizen Parents and Legal Guardians of Minor Children or Incapacitated Adults), which states that: "It is the policy of ICE to ensure that the agency's civil immigration enforcement activities do not unnecessarily disrupt or infringe upon the parental or guardianship rights of noncitizen parents or legal guardians of minor children or incapacitated adults, consistent with all legal obligations and applicable court orders." ICE Directive 11064.3 Section 2.

<sup>3</sup> See also Core Civic FAQ (attached as Exhibit B) (Q: "Who can visit?" A: "Detainees are allowed to receive visits from their families, associates, legal representatives, consular officials, and others in the community. All visitors must provide proper government issued photo identification.") (Q: "How do I get approval for a visit?" A: "No approval needed.") (A: "detainees may hold their small children").

Respectfully submitted,

Thank you, Facility Administrator [REDACTED], for keeping the previously scheduled visits on the calendar.

**I am writing again to ask you both—Facility Administrator [REDACTED] and DFOD [REDACTED]—for an exception to CLIPC’s standing no-contact social visitation policy.** We come to you requesting your assistance in uniting a new father with his less than one-month old first-born child, who, as you know, was born while his father was detained.

We understand that provision 5.7.V.B. in the PBNDS provides that facility administrators determine whether to permit social contact visits. We also understand that it authorizes exceptions to be made to the visitation standards on a “case-by-case basis when warranted by compelling circumstances.” Those same standards indicate that a facility should “try to facilitate contact visitation when possible” between an individual detainee and his minor child.

So, while we understand the facility’s standing policy for no-contact social visitation, we believe that the circumstances here are beyond compelling. Therefore, we are appealing to both of you to work with us to

find a way for CLIPC to make an exception for Mr. Khalil—so that he can hold his newborn child for the first time.

We are simply trying to unite father and child. Please let us know if it is at all possible to facilitate at least one contact visitation between the two.

Good afternoon DFOD [REDACTED] and Facility Administrator [REDACTED],

I understand per below that CLIPC has denied a contact visit—between Mr. Khalil, his wife, and his newborn child—because the facility does not provide for social contact visits. While I understand the information set forth in the email below, I am trying to square that with what I read as a policy directive that “[c]ontact visits may be facilitated at all ICE detention facilities.” See <https://www.ice.gov/doclib/detention-reform/pdf/facilitatingVisitationParents.pdf> (accessed May 20, 2025) (emphasis added).

Taking into consideration CLIPC’s standing policy denying all social contact visits, I am writing to ask that an exception be made pursuant to the above-mentioned policy, and/or to understand how a limited contact family visit can be provided for considering the age of Mr. Khalil’s son—he is 29 days old today. ICE Directive 11064.3 (Interests of Noncitizen Parents and Legal Guardians of Minor Children or Incapacitated Adults) states that: “It is the policy of ICE to ensure that the agency’s civil immigration enforcement activities do not unnecessarily

disrupt or infringe upon the parental or guardianship rights of noncitizen parents or legal guardians of minor children or incapacitated adults, consistent with all legal obligations and applicable court orders." ICE Directive 11064.3 Section 2.

We fully understand that the PBNDS states that facilities should make decisions and policies for visits within the "constraints of the safety, security and good order of the facility." (5.7.I, *Purpose and Scope*). But we also understand that facilities are encouraged to provide opportunities for *both* contact and non-contact visitation with approved visitors during both day and evening hours. (5.7.II, *Expected Outcomes*) (emphasis added). Moreover, the PBNDS clearly encourage consideration of the particular circumstances at issue for the person detained. 5.7.II.6 ("Generally visits should be for the maximum period practicable but not less than one hour with special consideration given to family circumstances and individuals who have traveled long distances.").

Here, contact visitation for Mr. Khalil with his wife and newborn son poses no risk of violating the facilities' conditions on safety, security, and good order. Indeed, based on public-facing CLIPC policy, it is only family or "social" visits that are non-contact; thus, contact visits are feasible broadly and can be reasonably accommodated. A simple contact visit for Mr. Khalil's wife and newborn child poses no risk of violating the orderly operation of the facility; indeed, as you are aware, the facility is highly secure, with multiple security checkpoints prior to entry. Existing policies already protect against such disruptions, and the minor exception to allow a contact family visit here would leave those in place. Further, such a meeting can be facilitated with minimal staffing requirements, greatly mitigating the impact to the operations of the facility.

Thank you both for considering this request. We are happy to continue working with ICE and CLIPC to identify any limited exception that may provide Mr. Khalil with the opportunity to see his wife, and his newborn son for the first time.

Best,

**Subject:** [EXTERNAL] Request for Extended Contact Visits with U.S. citizen wife traveling from New York // Mahmoud KHALIL A [REDACTED] (readnow - for Marc's filter)

Hi Warden,

Thanks again for your assistance coordinating the legal visit for this week. We also wanted to reach out to request that your facility provide extended contact visitation during family visiting hours with Mr. Khalil's U.S. citizen wife, Noor Abdalla, who will be traveling from New York to Louisiana this week to attend Mr. Khalil's hearing and visit her husband. Mr. Khalil's wife would like to visit her husband for as long as possible during the visitation periods on Wednesday, May 21 (6pm-8pm), Thursday May 22 (6pm-8pm), and Friday May 23 (9am-11am, and 6pm-8pm).

Because Ms. Abdalla is traveling from such a great distance after having just given birth to the couple's first child to visit her husband for the first time since he was detained ten weeks ago, we hope and assume that under the circumstances, the facility would be willing to arrange extended contact visitation. This request is in line with ICE's Performance-Based National Detention Standards (PBNDS), which encourage facilitating contact visits and allowing generous visitation policies for family members traveling far distances. See, e.g., PBNDS 5.7, V.I.1 ("ICE/ERO encourages more generous limits when possible, especially for family members traveling significant distances."); PBNDS 5.7, II.4 ("Facilities are encouraged to provide opportunities for both contact and non-contact visitation with approved visitors during both day and evening hours"); II.6 ("Generally visits should be for the maximum period practicable but not less than one hour with special consideration given to family circumstances and individuals who have traveled long distances.").

Please let us know if there is any additional information that would be helpful in processing this request. We would be happy to discuss further on the phone to work out any logistics. Thank you very much for your assistance.

Best,

Oona
